Rule Book

Annex 5

Re-Assessment Statement

Version 1.0

29 November 2018

Common Security Evaluation & Certification Consortium of GBIC and UKF

Reassessment statement to be used within the Common.SECC Surveillance Process

The evaluator should prepare a letter using the following wording. Some of the text is optional, and is shown in italics. It is to allow for inclusion of new site visits that have been needed, and also to allow for some of the original product variants no longer being included.

Laboratory name

Reference: <Name and date of the original ETR (report identifier) and Registration Number>

Dear Common.SECC

We have reviewed the original evaluation of <device name> from <vendor name>, reference <report identifier>, dated <date>, together with the latest vendor documentation, *and have repeated site audits where necessary*. In the light of this review and the latest known attack methods we confirm that the overall pass verdict is still *valid for the following variants: <hardware version>..., <firmware version>....*

Revised vendor documents since the original evaluation are as follows and are enclosed: (either “no revisions”, or a list)

Revised site visit report(s) are enclosed.

Signed...

Dated

When complete, this statement should be emailed to common-secc@ukfinance.org.uk together with enclosures if appropriate.
